

WORKS DONE IN THE RELATED AREA

These are few research papers that we have went through for reference and found which is better for implementations of project.

Paper/ Source	Topic	Problem Faced	Stage-of Project
Dataset	Data pre-processing	Data Conversion , managing missing values	<u>Initial</u>
Data mining Techniques By- <u>Valmik B Nikam</u>	Removing null values, noisy data	Data in huge amounts regularly will be unreliable or inaccurate	<u>Initial</u>
Logistic Regression By- <u>Gaurav Chauhan</u>	Detecting error and accuracy	Improved Accuracy	<u>Middle</u>
Deploy Machine Learning Models To our project	Logistics Regression, Linear Regression, Decision Tree	Error in prediction Max. and Min. Temperature	<u>Final</u>
